

Patient's Responsibilities

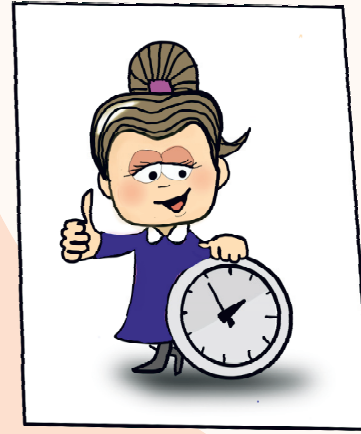

LINK TO ALL
INFORMATION

1

Take full care of your health and follow the doctor's recommendations.

2

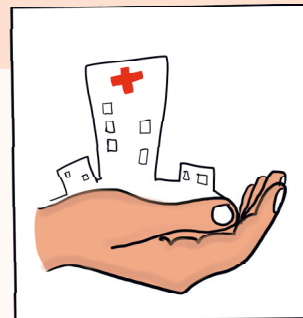

Timely and punctual attendance to and service appointments. If attendance is not possible, the cancellation and/or postponement must be informed previously.

3

Truthfully, clearly and completely report/inform about your health status to the doctor/healthcare professional.

4

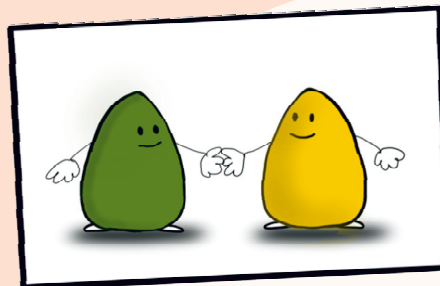

Care for and rational use of resources and facilities.

5

Treat staff with dignity, respect and courtesy.

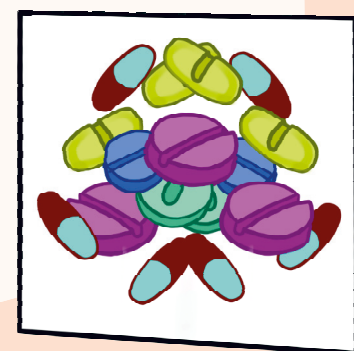

6

Respect both the property of others and the political/religious beliefs of other patients and staff.

7

Fulfil the treatments and instructions provided by health personnel for your physical and psychological well-being.

8

Comply with the established rules of the institution.

9

No smoking in health facilities and their surroundings

10

Contributing to the care of the environment.

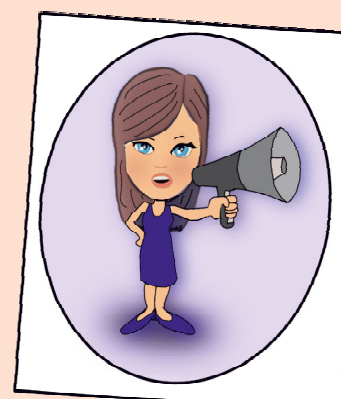

11

Duty of collaboration in public health issues. Citizens will facilitate the development of public health actions and will refrain from conducts that hinders, prevents or falsifies its execution.

12

Duty of communication. People who know facts, data or circumstances that could constitute a risk or serious danger to the health of the population will make them known to the health authorities.
